38"

3" **3"**

**DIRECT MOUNT**

• Use standard construction adhesives i.e., Liquid Nails and 100% silicon for doors and windows installation

• Clean and prepare surface per adhesive guidelines.

• Spread adhesive evenly on panel back, leaving 2" space at edges

• Adhere to wall surface, providing bracing to hold material against surface per adhesive open time/instructions

~ 44"

~ 15"

FURRING STRIPS FOR AIR GAPS

• Furring strips may be used to provide air space behind the panel

• Furring strips are made of wood

• Wood strips are fixed to the wall with bolts

• Recommended width 3-1/2" and thickness 1-1/2''

• Furring strips should be placed every 6"-18" along the panel depending on expected potential impact.

• Spread adhesive on furring strip surface and place panel to furring strips, bracing per adhesive instructions
